

Moving to the Sun

Shira Biner P.1

Approach:

Drive up North Joffre Creek, 4x4 recommended. Hike to the head of the valley past Mouse's Tooth 1.5-2hrs. The route is located at the left side of the headwall that impounds the valley at its North West end. It climbs the right side of a slender waterfall cascading 100 meters from the rim.

50°23'42.49"N 122°35'11.69"W ~1700m asl

Moving to the Sun features superb stone, cool positions and fine views down the basin to the Joffre/Matier Group. A dozen quickdraws and a 60m rope is all the kit you'll need. Either rappel the route or scramble up from the last anchor to a tree belay and walk down the drainage to the North (climber's right)

First Ascent: Tony Richardson and Paul McSorley July 2026. With help from Shira Biner, Taran Ortlieb.

P1 10b 30m 10 bolts Climb the face and arête up wonderful edges and jugs

P2 10c 15m 4 bolts Move left off the belay into exciting positions above the waterfall. At the 4th bolt, continue up and mantle onto the big ledge. After the Gold Rush has an anchor around and to the right - avoid getting sucked over that way.

Move the belay 5 meters across the gap, to the station below P3

P3 10b 30m 9 bolts Fun face and slab

P4 11a 27m 8 bolts. Technical arête work

Tony Richardson P.4

P.2

After the Gold Rush

10b 120m Gear to #4

P1 10b 25m Gear to 2"
Fingers and Face to a good ledge

P2 10b 30m Gear to 4"
Go up left over a wedged block and climb to a ledge. Either boulder out the wide flake above or move around left to the belay at the top of P1 on Moving to the Sun and split the pitch. A short 10d/ 11a finger crack (Gear to 3") leads to the anchor

P3 5.6 Gear to 3" 60+m
Surf the low angle terrain up and right finding an exit where convenient.

Descent is a walk off to the right (North) then down the drainage

FA: Taran Ortlieb, Paul McSorley Sept 2025

Slowmaxxing

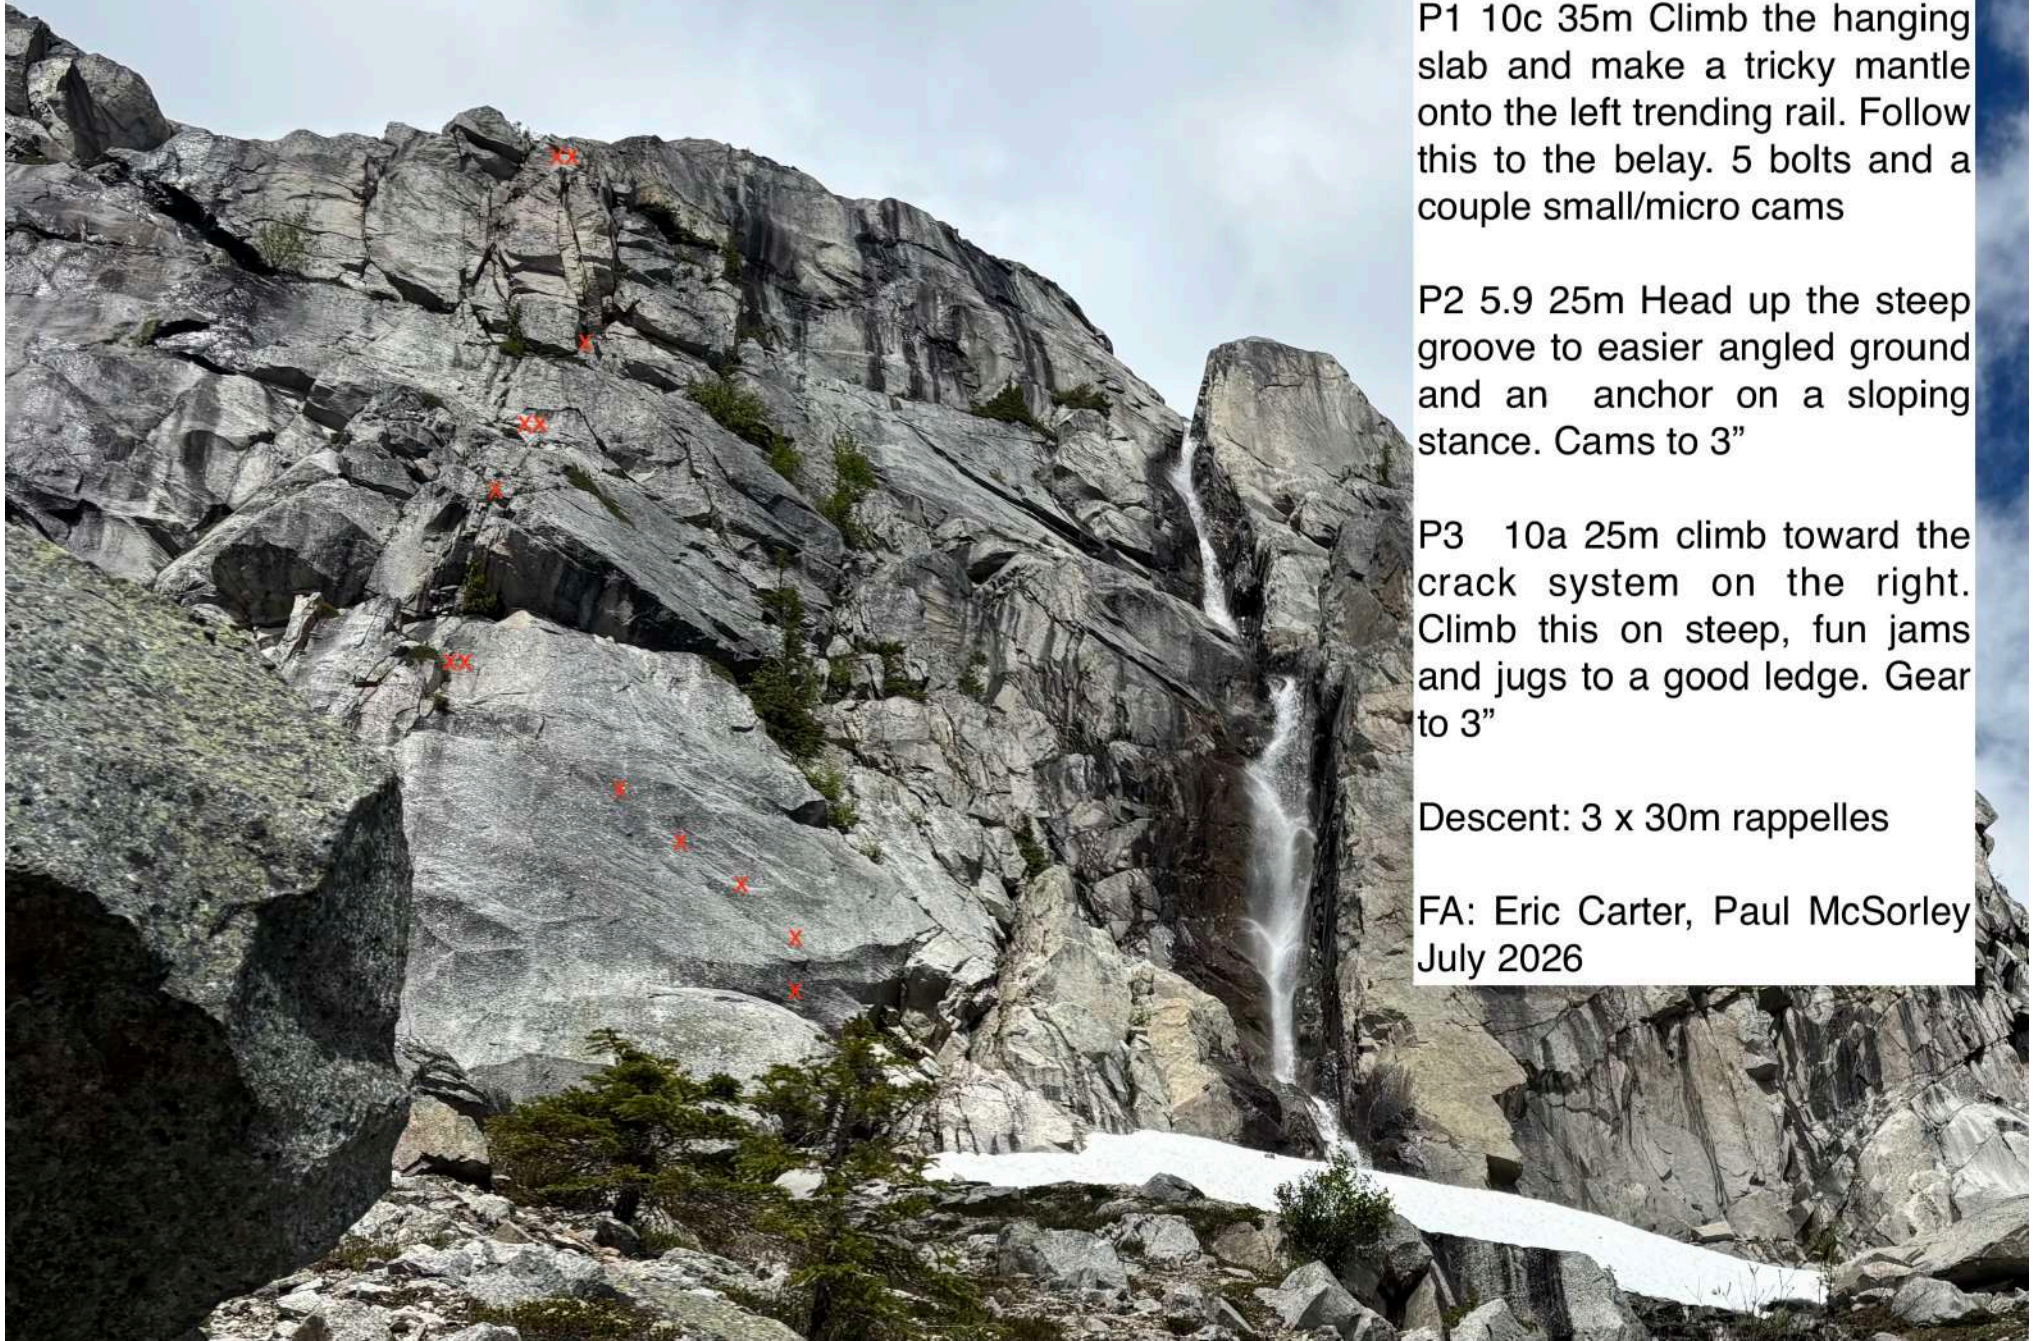

P1 10c 35m Climb the hanging slab and make a tricky mantle onto the left trending rail. Follow this to the belay. 5 bolts and a couple small/micro cams

P2 5.9 25m Head up the steep groove to easier angled ground and an anchor on a sloping stance. Cams to 3"

P3 10a 25m climb toward the crack system on the right. Climb this on steep, fun jams and jugs to a good ledge. Gear to 3"

Descent: 3 x 30m rappelles

FA: Eric Carter, Paul McSorley
July 2026

Something About Mary

FA: Shira Biner, Paul McSorley, Trevor McDonald

July 2026

P1 5.7 27m Climb to the offset splitter and step right. Rambly face and slab leads to a ledge. Gear: .5 ,#1 or 2 camalot, 4 bolts.

P2 11a 25m climb fingers, lieback and a leftward face traverse - excellent! Gear: doubles from black totem to .75. extra yellow totem, optional #3, small and medium stoppers (extra of the small).

P3
Not Recommended -
Lots of loose blocks
